this book brings an intersectional perspective to border studies drawing on case studies from across the world to consider the ways in which notably gender and race dynamics change the ways in which people cross international borders and how diffuse and virtual borders impact on migrants experiences by bringing together 11 ethnographies the book demonstrates the necessity for in depth empirical research to understand the class gender and race inequalities that shape contemporary borders in doing so the volume sheds light on how migration control produces gendered violence at physical borders but also through the politics of vulnerability across borders and social boundaries it places embodied narratives at the heart of the analysis which sheds light on the agency and the many patterns of resistance of migrants themselves as such it will appeal to scholars of migration and diaspora studies with interests in gender

this four volume encyclopedia set is organized to allow the reader to explore gender and politics from an updated interdisciplinary intersectional and global perspective the organization format will be an a z approach of approximately 500 600 entries with entries ranging in word count from 1 500 3 000 words with some entries on foundational topics at around 5 000 coverage will examine both the role gender plays within the realm of politics political participation leadership etc as well as policies that are based in gender abortion and reproductive policies transgender rights etc foundational topics will include entries such as international security and gender which will introduce gender and war human trafficking gender and militarism and women and terrorism and international relations and gender which will introduce topics such as gender mainstreaming the convention on the elimination of all forms of discrimination against women cedaw and eco feminism a comparative politics foundational entry will focus on research areas surrounding political representation and participation legislative processes and law such as gender quotas gender gap in political participation and leadership intersectionality and barriers in representation and leadership ni unos menos not one less movement recent significant activist movements and transgender specific law concepts connected to feminist and queer theory as applied in regional studies will also be covered for example marianismo or the connection between catholicism and gender roles in latin american and latinx communities asian american and pacific islander aapi voters and political mobilization and lgbqtia leaders and social movements will be included this encyclopedia will be essential for any undergraduate or graduate course on gender studies in gender studies programs as well as sociology political science history or other related programs disciplines gender and politics international relations and gender or area specific courses such as gender and latin american politics or gender and african studies

in recent decades women living in border cities have taken on new roles and have become one of the most vulnerable population groups experiencing the effects of the economic crisis of the early 21st century and the consequent increase in social inequality and violence this situation is particularly evident for the northern

borderlands of mexico and morocco the geopolitical position of these regions is defined by their strong existing asymmetry with their neighbouring countries the united states in the case of mexico and the mediterranean european countries in the case of morocco this book contributes to the understanding of current changes in the workplace in family in sexuality and sexual violence within the setting of the borderlands through various studies addressing the manner in which these transformations are interpreted and experienced by women in everyday life and in their individual and collective agency

environmental history has traditionally told the story of man and nature scholars have too frequently overlooked the ways in which their predominantly male

subjects have themselves been shaped by gender seeing nature through gender here reintroduces gender as a meaningful category of analysis for environmental history showing how women's actions desires and choices have shaped the world and seeing men as gendered actors as well in thirteen essays that show how gendered ideas have shaped the ways in which people have represented experienced and consumed their world virginia scharff and her coauthors explore interactions between gender and environment in history ranging from colonial borderlands to transnational boundaries from mountaintop to marketplace they focus on historical representations of humans and nature on questions about consumption on environmental politics and on the complex reciprocal relations among human bodies and changing landscapes they also challenge the ecofeminist position by challenging the notion that men and women are essentially different creatures with biologically different destinies each article shows how a person or group of people in history have understood nature in gendered terms and acted accordingly often with dire consequences for other people and organisms here are considerations of the ways we study sexuality among birds of william byrd's masking sexual encounters in his account of an eighteenth century expedition of how the ecology of fire in a changing built environment has reshaped firefighters own gendered identities some are playful as in a piece on the evolution of snow bunnies to shred betties others are dead serious as in a chilling portrait of how endocrine disrupters are reinventing humans animals and water systems from the cellular level out aiding and adding significantly to the enterprise of environmental history seeing nature through gender bridges gender history and environmental history in unexpected ways to show us how the natural world can remake the gendered patterns we've engraved on ourselves and on the planet

looking at two contrasting border regions one in western hungary one in the east of the country this volume is the first to combine an examination of border related issues with gender and economic development by comparing and critically analyzing the relative levels of encouragement of entrepreneurial activities and gender differences it highlights the importance of borders within the changing european union despite the assumption that entrepreneurship would be strongest near the western border with austria the findings show that on the contrary many women in western hungary would rather avoid the risk of being self employed by getting well paid jobs in austria or working for foreigners while in the east of the country entrepreneurship was often the only possible way of earning a living it also highlights the importance of setting up a business to the empowerment of women in both regions by giving them a bigger decision making role in the family

in an important contribution to postcolonial gender and eurasian ethnic studies madina tlostanova examines central asia and the caucasus to trace the genealogy of feminism in those regions following the dissolution of the ussr the forms it takes she finds resist interpretation through the lenses of both western feminist theory

and woman of color feminism tlostanova argues that eurasian borderland feminism must chart a third path sensitive to the region's own unique past

the study of borders has recently undergone significant transitions reflecting the transformation of the world political map as well as the changes in the ways boundaries themselves function in gendering border studies sixteen established scholars from a variety of disciplines examine how the issue of gender and borders has been approached in their field and describe what they expect from future research this book will be of interest to scholars of border studies gender studies social anthropology international politics comparative literature and welsh studies

they are often portrayed as outsiders ethnic minorities the poor the disabled and so many others all living on the margins of mainstream society countless previous studies have focused on their pain and powerlessness but that has done little more than sustain our preconceptions of marginalized groups most accounts of marginalization approach the subject from a distance and tend to overemphasize the victimization of outsiders taking a more intimate approach this book reveals the personal moral and social implications of marginalization by drawing upon the actual experiences of such individuals multidisciplinary and multicultural identity on the margin addresses marginalization at a variety of social levels and within many different social phenomena going beyond familiar cases dealing with race ethnicity and gender to examine such outsiders as renegade children conservative christians and the physically and mentally disabled and because women are especially subject to the effects of marginalization feminist concerns and the marginalization of sexual practices provide a common denominator for many of the essays from problems posed by complimentary racism to the status of gays in tony blair's england from the struggle of native americans to preserve their identities to the singular problems of single mothers identity on the margin takes in a broad spectrum of cases to provide theoretical analysis and ethical criticism of the mechanisms of identity formation at the edges of society in all of the cases the authors demonstrate the need for theory that initiates social change by considering the ethical implications of marginalization and criticizing its harmful effects bringing together accounts of marginalization from many different disciplines and perspectives this collection addresses a broad audience in the humanities and social sciences it offers a basis for enhancing our understanding of this process and for working toward meaningful social change

between 1993 and 2003 more than 370 girls and women were murdered and their often mutilated bodies dumped outside ciudad Juárez in chihuahua mexico the murders have continued at a rate of approximately thirty per year yet law enforcement officials have made no breakthroughs in finding the perpetrator s drawing on in depth surveys workshops and interviews of Juárez women and border activists violence and activism at the border provides crucial links between these disturbing crimes and a broader history of violence against women in mexico in addition the ways in which local feminist activists used the Juárez murders to create international publicity and expose police impunity provides a unique case study of social movements in the borderlands especially as statistics reveal that the rates of femicide in Juárez are actually similar to other regions of mexico also examining how non governmental organizations have responded in the face of mexican law enforcement s normalization of domestic violence staudt s study is a landmark development in the realm of global human rights
